March 31, 2015

**1. NATURE OF OPERATIONS AND GOING CONCERN:**

Benton Capital Corp. (the “Company”) (formerly Benton Resources Corp.) was incorporated on July 10, 2003 under the laws of British Columbia and is a development stage public company whose shares began trading on the TSX Venture Exchange in April of 2005. Its principal business activities are the acquisition, exploration and development of mineral properties in Canada.

The accompanying consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes the realization of assets and the settlement of liabilities in the normal course of business. The appropriateness of the going concern assumption is dependent upon the Company’s ability to generate future profitable operations and/or generate continued financial support in the form of equity financings. These consolidated financial statements do not reflect any adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classification that would be necessary if the going concern assumption were not appropriate and such adjustments could be material.

	March 31, 2015	June 30, 2014
Working capital	\$1,167,911	\$1,338,899
Deficit	\$(7,552,881)	\$(7,322,635)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the IASB (“International Accounting Standards Board”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34- Interim Financial Reporting. The accounting policies followed in these condensed interim financial statements are the same as those applied in the audited annual consolidated financial statements for Benton Capital Corp. for the year ended June 30, 2014.

The policies applied in these condensed consolidated interim financial statements are based on IFRS issued and outstanding as of May 11, 2015 (the “Report Date”), the date the Audit Committee approved the statements. Any subsequent changes to IFRS after this date could result in changes to the financial statements for the period ended December 31, 2014.

The condensed consolidated interim financial statements do not contain all disclosures required under IFRS for annual financial statements and should be read in conjunction with the audited annual consolidated financial statements and the notes thereto for Benton Capital Corp. for the year ended June 30, 2014.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include exploration and evaluation assets, share-based payments, allocation of financing proceeds, and income taxes. Differences may be material.

### 3. TEMPORARY INVESTMENTS:

	March 31, 2015	June 30, 2014
Money Market Mutual funds	\$ 1,091,926	\$ 1,376,105

These funds are available for exploration and other purposes upon the request of the Company.

The mutual funds consist of fully liquid, managed money market fund units that yield regular monthly dividends at market rates.

### 4. LOAN RECEIVABLE:

During the nine month period ended March 31, 2015, the Company advanced to Folium Life Science Inc. ("Folium") \$35,000 with such funds being used to retain the option to lease the building that will accommodate Folium's production facility once approved. In addition, the funds were used to settle certain liabilities related to the completion of Folium's Health Canada Licensed Producer application.

During the period ended March 31, 2015, the Company terminated its agreement to acquire Folium as efforts by both parties to negotiate an extension of the agreement were not successful and the loan amounts advanced above became immediately repayable to the Company. Thus far, no repayments have been made by Folium. In addition, as a result of the termination of the Folium agreement, the Company decided to retain its TSX Venture Exchange listing and will no longer pursue a Canadian Securities Exchange listing.

### 5. EXPLORATION AND EVALUATION ASSETS:

Mineral property acquisition, exploration and development expenditures are deferred until the properties are placed into production, sold, impaired or abandoned. These deferred costs will be amortized over the estimated useful life of the properties following commencement of production, or written-down if the properties are allowed to lapse, are impaired, or are abandoned.

The 100% owned Goodchild copper-nickel property was acquired by the Company by staking. The property consists of 209 claim units located 10km north of the town of Marathon, Ontario. The Goodchild property is the Company's only mineral property at September 30, 2014. At March 31, 2015 the Company had deferred exploration and evaluation costs totalling \$678,772 (June 30, 2014 - \$678,772).

The Rights Plan will provide the Company’s shareholders with adequate time to properly evaluate and assess a take-over bid without facing undue pressure or coercion. The Rights Plan also provides the board of directors of the Company with additional time to consider any take-over bid and, if applicable, to explore alternative transactions in order to maximize shareholder value.

Pursuant to the Rights Plan, any bid that meets certain criteria intended to protect the interests of all shareholders are deemed to be “Permitted Bids”. A Permitted Bid must be made by way of a take-over bid circular prepared in compliance with applicable securities laws and, in addition to certain other conditions, must remain open for 60 days. In the event a take-over bid does not meet the Permitted Bid requirements of the Rights Plan, the rights issued under the plan will entitle shareholders, other than any shareholder or shareholders involved in the take-over bid, to purchase additional common shares of the Company at a significant discount to the market price of the common shares at that time.

Pursuant to the letter of intent, the Company paid a First Deposit to Island Harvest in the amount of \$80,000 and commenced the due diligence period as provided for in the LOI. After conducting due diligence, Benton elected not to continue with the transaction. As a result, Benton and Folium abandoned the LOI and \$80,000 was written off during the period.
